

# Breast Pathology Fellowship Program

Chennai Breast Centre, a dedicated breast health facility, invites applications for a 6-month Fellowship in Breast Pathology. The main objective of the program is to provide the fellow with proficient diagnostic skills and in-depth understanding of the implications of pathologic assessment in the management of breast cancer patients.

Advance your career with expert-led training in a focused breast pathology environment.

## Why Choose Chennai Breast Centre

### **Advanced Infrastructure:**

Leica and Ventana instruments with test menu ranging from core needle biopsies to dual in situ hybridisation.

### **Yearly Statistics:**

Total no. of samples: 1200-1300

IHCs and DISH: 500

No. of surgical samples: 350-400

### **Comprehensive exposure and hands-on training in:**

- Reporting Core needle biopsies, Stereotactic biopsies and referral cases, Frozen Sections
- Immunohistochemistry and dual ISH
- Surgical samples including oncoplastic specimens, prophylactic surgical samples and wide local excisions
- Tumour banking

### **Multidisciplinary Learning Environment:**

There is extensive emphasis on a multidisciplinary approach to specimen evaluations, and the fellow interacts closely with senior pathologist, breast surgeons and radiologists in the evaluation of samples.

## Fellowship Overview

---

**Duration:** 6 months

**Start Dates:** February 1st and August 1st

**Eligibility:** MD/DNB pathology (less than 2 years experience) looking to specialise in breast pathology.
